

Ground Game Dashboard — Structural Sketch

Low-fidelity — boxes and labels only, no real styling decisions yet. Purpose is to confirm the section order and what data feeds each block before real design/build starts.

Themes Tracker

The 18 macro sentiments, tracked as they recur across meetings — trend over time, not just a snapshot.

Air Quality & Health

"It's Really a Data Center"

6

Technical / Health Reference Library

Pollutant chart, water-use comparison, source-credibility briefings — the "arguments against the fears" material.

8

News & Sources

The 16+ channels checked — articles, video, FB groups, petition — as a browsable list, not a wall of text.

9

Landowners / Distance Layer

Not built yet — placeholder for the 2.5mi radius + distance-to-data-hall calculator.

10

Open Items

The collection-gaps ledger — what's still unresolved, pulled straight from Supabase.

Structural sketch only — real visual design (typography, color, spacing) happens once the section list and data bindings are confirmed. Local copy: `MGW.reference.dashboard-wireframe.071526.v1.html`
